

We have created some easy to follow video guides that will introduce you to wagering with the easy2bet online betting service

1.1 Basic Wagering

Let's start with the basic layout and how to place simple wagers. This video will show you how to change event types (Horses, Greyhounds, Harness, Jai-Alai), selecting a track, and all the way through placing your first wagers.

1.2 Advanced Wagering

Now that we've seen the basics, this video will show you how to use bet modifiers such as a "box" and "key", changing tracks, making ten cent plays and viewing your bet history.

1.3 Pools, Results & Prices

You can quickly view pool totals right from your wager screen! You can only see detailed runner information (thoroughbreds only) and check on posted results & prices, all without opening a new window!
